THE COLLEGE

Mission

The primary mission of the college is to provide opportunities for the liberal education of men and women. To accomplish this the college provides courses from each of the major divisions of knowledge—the humanities, the natural sciences, and the social sciences—and attempts to organize them with breadth of view and imagination. Beyond this broad knowledge every student is given an opportunity to delve deeply into at least one subject to comprehend the complexity of knowledge and to equip him with the tools for pursuing a professional career. Of utmost importance in this process is the training of the intellect to think clearly. The aid to clear thinking is an inquiring mind—essential for scholars and for effective everyday living. To the skill of clear thinking must be added the art of self-expression in speech and in writing, for according to Alan Simpson, "a man is uneducated who has not mastered the elements of clean forcible prose and picked up some relish for style."

The standards by which the educated man is judged are those of excellence in intellectual development and flexibility of mind in meeting the problems caused by social change. An important function of education is to assist the individual in resolving successfully his present and future problems. Thus, the appropriate combination of knowledge, skills, and standards should equip the student and citizen to act responsibly in a democratic society and to derive maximum intellectual and emotional satisfaction from living.

It is the principal purpose of the college to utilize effectively its total resources—faculty, curriculum, library and other physical resources in achieving these educational goals.

History

In 1922, the State Legislature established a commission to determine a location for a two-year college on the Eastern Shore of Maryland. A site at Salisbury was selected and the institution opened in September 1925. Since its founding, the college has successfully met the increasing demands of society for quality education and today offers a variety of undergraduate programs in liberal arts, sciences, and in the professional fields of business administration, education, medical technology, nursing and social work. In addition the college's graduate division offers masters degree programs in business administration, education, English, psychology and history.

Originally authorized as a college offering a two-year program, the course of study was increased to three years in 1931 and in 1934 to four years. Following this, and by action of the legislature of 1935, the college was authorized to grant the bachelor of science degree.

Expansion of the academic programs occurred in 1947 and again in 1960, at which point four-year programs in both the arts and sciences with majors in a number of academic fields had been developed which provided students with a choice of either a bachelor of arts degree or a bachelor of science degree. In 1962 the State Board of Trustees approved a graduate program leading to the master of education. This was followed in 1971 with approval for a master of arts in history, in 1974 a master of arts in English, in 1975 a master of arts in psychology, and in 1981 a master of business administration.

Today Salisbury State College stands as a nationally accredited four-year, multi-purpose, liberal arts college offering 23 distinct undergraduate and graduate degree programs in a friendly atmosphere that encourages close relationships between faculty and students.

Location

Salisbury State College is located on U. S. Route 13 at the southern edge of Salisbury, which has a metropolitan population of 50,000 and lies 32 miles west of Ocean City, Md., 115 miles southeast of Baltimore and Washington, 125 miles south of Philadelphia and 125 miles north of Norfolk, Va.

Facilities

Holloway Hall is primarily the administrative office building of the college. It contains most administrative offices, faculty offices, and some classrooms. Also in Holloway are a modern 776-seat auditorium, Social Room, and the National Ward Foundation Wildfowl and Woodcarving Museum.

Blackwell Library, near the center of the campus, houses 245,596 items in open stacks, including books, bound periodicals, government documents, and a curriculum laboratory. The library subscribes to 1,850 periodicals and has extensive non-book resources including microforms, filmstrips, phono recordings and cassettes. The College Art Gallery is located on the second floor.

Caruthers Hall, located near Route 13, to the right of the main entrance to the college, houses the Computer Center, the Reading Center, the Writing Center, teacher education offices, as well as classrooms, faculty offices, and a 225-seat auditorium.

The College Center, located between Devilbiss Hall and the Ruth Powell Dining Hall, includes a lounge, snack bar, book store, meeting rooms, commuter mail boxes, games room, service desk, and staff and Program Board offices.

Devilbiss Science Hall is a three-story air-conditioned building. In addition to its 22 classrooms and 27 offices, there are a mathematics center, laboratories for geography and biological sciences, chemistry, physics and physical science. Special features in this building are a theatre-lecture hall seating 224, and a greenhouse.

The Health Center, located at the south end of Holloway Hall, features seven student-patient beds, a waiting room, two offices, a treatment room and a utility room.

The Musical Arts Center, situated at the Route 13 entrance, is an acoustically treated building, containing a 17-piano electronic piano laboratory, two classrooms, and faculty offices.

Benn Maggs Physical Activities Center was completed early in 1977 and includes a large arena, swimming pool, wrestling room, dance studio, classrooms, offices, large multi-purpose gymnasium, three hand ball courts, varsity and intramural locker rooms, training room, equipment and reception area.

Ruth Powell Dining Hall, near the center of the campus, completed during 1977, will seat nearly 1000 students at one time and offers the latest collegiate kitchen equipment.

The President's Home is located on a wooded knoll on the southern edge of the campus.

Residence Halls: Wicomico Hall houses 106 students; Manokin Hall, 94 students; Pocomoke Hall, 104 students; and Nanticoke Hall, 150 students.

Choptank and Chester are identical six-story air-conditioned dormitories for 221 students, each of which features on the first floor eight double bedrooms with two student baths, a manager's apartment, visitor's lounge, elevator and public toilets. Each of the five upper floors contains 20 double bedrooms, four student bathrooms, proctors' bedrooms and bath, snack room, student lounge and elevator.

Chesapeake Hall, the newest dormitory on campus, is a cluster type air-conditioned dorm for 184 students. Four double rooms are clustered around living room, a kitchenette, and 2½ baths. Each cluster has its own entrance from the outside and there are no inside corridors.

Maintenance Building is the newest facility on campus. It houses the post office, central stores, and the car pool.

Tawes Hall contains the offices of student clubs and organizations, intramural and recreation programs, game room, meeting room, and staff offices.

Outdoor Athletic Facilities include varsity fields for soccer, baseball, softball and field hockey, practice fields, all-weather quarter-mile track and 12 hard-surface tennis courts featuring plexi-pave surfaces and six lighted courts for night play. The baseball diamond features an Astro turf infield, the only one located in the state.

DIVISION OF GRADUATE STUDY

Salisbury State College is approved for graduate instruction by the Middle States Association of Colleges and Secondary Schools and the Maryland State Board of Education. The college offers graduate programs leading to the master of education degree, the master of arts degree in English, in history, and in psychology. Graduate study is also available for teachers seeking to meet requirements for basic or advanced certification and for post-baccalaureate students seeking graduate credit in both academic and professional areas.

During the fall and spring semesters, the great majority of graduate students enroll for courses conducted in the evening program of the college. Designed for part-time students, this program consists mainly of courses meeting once weekly throughout the semester in either late afternoon or evening sessions of approximately three hours each. A limited number of courses open both to graduate students and advanced undergraduates is also available in the regular daytime program. In addition, graduate study is available in the college summer program. Dormitory accommodations are available to graduate students in the summer sessions only.

Objectives

The primary objective of the graduate division at Salisbury State College is to provide college graduates with opportunities for professional advancement and personal enrichment through graduate study. The graduate curriculum is designed to assist such students in attaining greater mastery of their fields of specialization, to improve skills in pursuing independent study, and to increase professional knowledge and ability through the study of new findings in areas of special interest.

The college also recognizes an obligation to college graduates residing in the general community of the Eastern Shore and strives to offer constructive coursework at the graduate level designed to meet their specific needs throughout the year.

REGULATIONS AND PROCEDURES

Admission to Graduate Study

To be eligible for admission to graduate study, the applicant must have completed requirements for the bachelor's degree at an accredited institution of higher learning. Admission to the college is granted without regard to race, color, religion, national origin or sex.

Students seeking admission to graduate study may obtain application forms from the Graduate Office. The application should be completed and returned to that office as early as possible in the term immediately preceding actual enrollment. In each case, the applicant must request the registrar of his undergraduate institution to forward an official copy of his undergraduate transcript, showing completion of baccalaureate degree requirements, directly to the Graduate Office. Admission for graduate study is unofficial until the official transcript and completed application are on file, and graduate credit will therefore not be recorded until these documents are received and approved.

Students making a late decision to begin graduate study may register for graduate courses at the beginning of a semester or summer session, but will not be officially admitted until the application for admission and

official transcript are on file. Such students should visit the Graduate Office prior to registration in order to make sure that courses for which they register will fall within the requirements of the master's degree program they may subsequently wish to enter.

Upon receipt of the completed application for graduate admission and the official undergraduate transcript at the Graduate Office, the applicant will be notified by letter of formal admission for graduate study and may register thereafter for graduate credit so long as he remains in good standing. Admission for graduate study does not constitute admission to a master's degree program.

Financial Assistance

A limited amount of financial aid in the form of graduate assistantships and grants from the Maryland Other Race Grants Program is available each year to selected graduate students. Information concerning such assistance may be obtained from the Graduate Office.

Admission to Master's Degree Programs

Students are notified by letter of their formal admission to graduate study.

Those students indicating on their application forms an intended plan of study leading to a master's degree are assigned a graduate advisor who will assist them in selecting the program of study most appropriate for their needs.

Students admitted to the college for graduate study, but who have not been admitted to a master's degree program, may enter a degree program by scheduling an appointment at the Graduate Office. Graduate credits earned prior to acceptance for master's degree study may be applicable toward requirements for the degree provided the previously earned credits are appropriate for the degree program desired.

Transfer Credit

On the recommendation of the faculty advisor and with approval of the director of graduate studies, a student may transfer up to twelve semester hours of graduate credit from other accredited institutions, subject to the following conditions: credit proposed for transfer must be (1) directly related to the student's program of study as approved by the department concerned and the director of graduate studies; (2) acceptable for graduate degree credit by the home institution, and (3) supported by an official transcript showing graduate credit earned with grade of B or higher.

Students planning to earn graduate credit at other institutions for possible transfer toward master's degree requirements at Salisbury State should in all cases write the director of graduate studies prior to registering for such work, giving full particulars on the courses to be taken, so that a decision may be made in advance regarding the acceptability of such credit for transfer. In each case, the student should make certain that he has obtained classification as "graduate student" at the institution from which the transfer of credit is expected.

For students enrolled in the master of education degree program, a maximum of six hours in education and a maximum of six hours outside of education may be considered for transfer. For students in the M.A. program in history, not more than nine of the twelve hours eligible for consideration may be in history. For students in the M.A. programs in psychology and in English, a maximum of twelve semester hours may be transferred.

The cumulative grade point average of each student will be calculated only on work taken at Salisbury State College.

Credits earned by correspondence are not eligible for transfer.

Graduate Credit During Senior Year

Salisbury State College undergraduates who are within six semester hours of completing requirements for the baccalaureate degree may register for up to six hours of graduate credit at the 400 level, to be taken concurrently with the remaining courses in the baccalaureate program, with approval of the director of graduate studies. Graduate credit will be awarded only upon completion of baccalaureate degree requirements by the end of the semester in which the final course requirements were begun.

Foreign Students

Foreign applicants should submit all documents required for admission at least two months prior to the date of anticipated enrollment. Official copies of transcripts showing completion of baccalaureate degree requirements must be sent directly to the Office of Graduate Studies by the institution at which such work was completed, and documents not written in English must be accompanied by English translations. In addition, applicants whose native language is other than English must submit satisfactory scores on the Test of English as a Foreign Language (TOEFL). Information on the TOEFL may be obtained from TOEFL, Educational Testing Service, Princeton, N.J. 08540.

Time Limitation

All work credited toward the master's degree must be completed within seven calendar years from the end of the semester or summer term in which such work began. For example, a student who began the master's degree program in June 1981, must have completed all requirements for the degree by the end of Summer 1988.

Application for Diploma

It is the responsibility of the individual graduate student to check with his advisor to make sure that all degree requirements have been fulfilled, and to make the necessary arrangements at the Registrar's Office for graduation.

Each degree candidate must make application for his diploma by the appropriate deadline and pay the required Diploma Fee. The Application for Diploma form is available at the Office of the Registrar and must be completed and returned to that office, together with payment of the Diploma Fee, not later than the beginning of the final semester before graduation. Any student who finds it necessary to postpone graduation must submit a new Application for Diploma to the Office of the Registrar.

Tuition and Fees

Tuition for graduate students classified as Maryland residents is \$58.00 per semester hour for graduate credit, and \$37.00 per semester hour for undergraduate credit. Tuition for graduate students classified as out-of-state residents is \$64.00 per semester hour for graduate credit, and \$41.00 per semester hour for undergraduate credit. In addition, an Out-of-State Fee of \$15.00, payable at each registration, is assessed each graduate student residing out of state.

Also payable at each registration is a Registration Fee of \$12.00. The following additional fees, usually non-recurring, are also applicable for most graduate students: Admission to Degree Candidacy, \$10.00; Diploma Fee, \$40.00; on-campus Parking Fee (payable once annually between September 1 and August 31), \$10.00; and a Transcript Fee of \$2.00 per copy. A penalty of \$5.00 is charged for late registration.

It should be noted that tuition and fees are subject to change without notice by action of the Board of Trustees of the State Universities and Colleges.

Faculty Advisory System

On admission to a master's degree program, the student is assigned a faculty advisor in the appropriate field of study. The major responsibility for advising graduate students rests upon the faculty advisor. Although the individual student is personally responsible for meeting all requirements and deadlines, the faculty advisor and respective department chairman are responsible for certifying to the director of graduate studies that various program requirements for the master's degree have been fulfilled. It is therefore strongly recommended that students in the master's degree program consult their advisors periodically to make sure that the course requirements of their program, and other requirements as well, are clearly understood and are being met on schedule.

Student Responsibility

The responsibility for obtaining the Graduate Catalog, information regarding registration and scheduling of classes, for becoming familiar with and fulfilling graduate degree requirements, meeting stated deadlines and filing the necessary forms at the proper offices, rests solely with the graduate student.

Appeals Concerning Regulations

The faculty advisor and respective department chairman have jurisdiction over the program of each degree candidate within regulations established by the Graduate Council. When requested by the student, faculty advisor, and/or department chairman, the Graduate Council shall serve as the Board of Appeals on matters concerning the interpretation of regulations governing the degree program.

Transcripts and Certification of Completion of Degree Requirements

Transcripts of graduate records and certification of the completion of degree requirements may be obtained by contacting the Office of the Registrar. Certification of completion of degree requirements will be made only after all requirements are in fact completed and after submission of the completed Application for Diploma and Diploma Fee.

Official Withdrawal and Refund Procedures

A graduate student who finds it necessary, after registration, to drop a part of his course load, or to withdraw from the college completely for that term, should in all cases complete the official drop or withdrawal form and submit it to the Office of the Registrar. This assures the student that any refund due will be

processed automatically and that his change of registration will become a matter of record.

Students failing to comply with regulations governing official withdrawal and/or dropping of courses forfeit all rights to refunds which might otherwise be made.

Detailed procedures for official withdrawal from the college and for official dropping of courses, including deadlines for submitting of forms necessary for the disbursement of refunds, appear regularly in the Evening Program and Summer Sessions Bulletins. Students are urged to note this information with care.

Course Load

The unit of credit is based on the semester system. The normal course load for a graduate student attending full-time is nine to twelve credit hours per semester. Requests for course loads in excess of twelve hours per semester must be approved by the director of graduate studies.

In summer, six hours credit is considered a full course load for each of the summer sessions. Additional credit may be taken only with approval of the director of graduate studies.

Class Attendance

Students are expected to attend all class meetings of courses for which they are registered unless informed otherwise by the instructor concerned. Frequent unexcused absences together with unsatisfactory work, due to absence, may result in exclusion from the course or suspension from the graduate division.

Grading System

A four-point grading system is used to identify the quality of academic work. The grade of "A" carries four grade points per credit hour, "B" carries three points, "C" carries two points, and "D" carries one point. A grade point average of 3.0 on all work taken in pursuit of degree requirements is required for graduation. The following grades are used to evaluate the student's work in courses taken for graduate credit:

- A (Excellent)
- B (Good)
- C (Below Standard)
- D (Poor, with no credit for degree allowed)
- I (Incomplete)
- W (Withdrawal)
- WP/WF (Withdrawal Passing/Withdrawal Failing)

The symbol "I" denotes non-completion of course material for reasons beyond the student's control and is assigned only if the course deficiencies result from unavoidable circumstances. This symbol generally becomes an "F" if the work is not made up prior to midsemester of the next full semester for which the student is enrolled, or at the end of one calendar year, whichever is earlier.

The symbol "W" denotes that the student officially withdrew from a course, or from the college, between the end of the Drop/Add Period and up to one week following midsemester during the fall and spring semesters, and up to a few days beyond mid-term for the Summer Sessions. For students who withdraw from the college after these deadlines, the symbols "WP" or "WF" are assigned to denote the student's status at the time of withdrawal.

Courses taken for graduate credit may not be taken on a Pass/Fail basis.

Academic Standards

To remain in good standing, a student admitted to a master's degree program must maintain a grade point average of at least 3.0 (B) on all graduate courses taken in pursuit of degree requirements. If the cumulative average falls below 3.0, the student will be placed on probation. Dismissal from the master's degree program is automatic if the grade point average is not restored to 3.0 by the time of completion of the next nine hours of credit following notification of probation.

A student dismissed from a master's degree program for academic deficiency will ordinarily remain ineligible for readmission to that degree program or for admission to another master's degree program at Salisbury State College. In no case will such readmission or admission be granted prior to one calendar year following the term of dismissal. The student dismissed, however, may continue to register for graduate credit as a non-degree student.

In exceptional circumstances, a student dismissed for academic deficiency may be considered for readmission to the program from which dismissal occurred or to another master's degree program. Such a student must submit the appropriate application form to the Graduate Office not later than eight weeks prior to the term for which admission is desired. In each case, the application must be accompanied by a letter showing reasons for lack of previous academic success and indicating reasons why acceptable academic performance might be expected in the future. Decisions on such applications will be made by the Graduate Council after consultation with the chairman of the department offering the degree program to which admission is requested.

Course Numbering System: Graduate Credit

Courses at the 500 level offer graduate credit exclusively and are not available to undergraduates. Courses at the 400 level appearing in the list which follows may be taken either for graduate credit or for advanced undergraduate credit. Graduate students enrolled in such courses are expected to do graduate level work and to

meet requirements more rigorous than those established for undergraduates. It is the responsibility of the individual instructor to define precisely the quality and quantity of work that he expects from members of his classes, both graduates and undergraduates.

It follows that the instructor may reasonably anticipate work of the highest level of competency from those enrolled in 500 level courses.

Professional Certification

Requirements for the various teaching and administrative state certificates change from time to time and are determined by agencies other than the college. Therefore, the college cannot guarantee that a particular graduate program will automatically fulfill requirements for any of the various certificates available. Students seeking such certification are advised to consult a certification specialist within their State Department of Education for information on the particular certification requirements they may wish to meet.

GRADUATE DEGREE PROGRAMS

The Master of Education Degree

Students seeking the master of education degree at Salisbury State College will complete an approved program of study including at least thirty-three semester hours of graduate credit with a cumulative average of B or higher, with no grade lower than C, and with no more than two C's in the following areas: (a) required foundations courses in education, (b) electives for those in Program A, below, and (C) field of concentration for those in Program B, below.

Admission to Candidacy: Master of Education Degree

To be eligible for admission to candidacy for the master of education degree, the applicant must meet the following requirements:

1. Earn a cumulative average of B or higher, including no grade below C, on at least twelve hours of graduate courses completed at Salisbury State College in the master's degree program. This requirement may be waived for students who earned an overall average of B or higher in their undergraduate programs. Others in this program should apply after having earned a cumulative average of B or higher on twelve hours and not later than having completed eighteen hours. Graduate degree students are required to earn a minimum of fifteen semester hours of graduate credit after admission to candidacy except in special cases authorized by the director of graduate studies.

2. Submit the completed application for admission to candidacy to the director of graduate studies.

Course Requirements

The following foundations courses in education are required as indicated. It is strongly recommended that Education 502, below, be taken at the outset of graduate study.

The three additional foundations courses in education should be taken as early in the program as possible.

Required

Education 502: Introduction to Research, (3)

Choice of either of the following two:

Education 510: Seminar: Recent Issues in Education (3) or
Education 511: Critics of Education, (3)

Choice of either of the following two:

Education 514: Seminar in Curriculum Construction (3) or
Education 545: Development, Learning, and Instruction in the Schools, (3)

Choice of either of the following two:

Education 500: Historical and Social Foundations, (3) or
Education 501: The School in Western Culture, (3)

Additional requirements for the master of education degree may be met under either of the following two programs.

PROGRAM A (21 semester hours)

1. Six semester hours in approved courses in methodology, techniques and procedures. (A list of approved courses for this requirement is available at the Graduate Office.)
2. Electives: An approved sequence of twelve semester hours, at least half of which shall be selected from courses at the 500 level (i.e., available exclusively for graduate credit).
3. Choice of a research project for three credit hours or an approved course substitute of at least three credit hours. Those electing the course substitute will complete two formal research papers, at least one of which will be completed in connection with one of the 500 level foundations courses (Ed. 500, 501, 502, 510, 511, 514, 545). The other paper may be completed with any of the remaining courses in a student's program including foundations courses. Those electing the research project will enroll in Education 530: Directed Research, (3), and will submit the completed project to the project director. They must also satisfactorily

complete an oral examination on the project, to be scheduled through the faculty advisor after completion of the project.

PROGRAM B (21 semester hours)

1. Twelve semester hours in an area of concentration, to be selected from one of the following areas: counseling, early childhood education, educational administration, English, geography, history, mathematics, music, psychology, reading education, science, sociology, or special education. At least six semester hours in the area of concentration shall be selected from courses at the 500 level (i.e., available exclusively for graduate credit).

2. An additional three semester hours in the area of concentration to be completed in one of the following options: choice of a research project in the area of concentration for three credit hours or an approved course substitute in the area of concentration for at least three credit hours. Those electing the course substitute will satisfactorily complete one formal research paper in the area of concentration and one in connection with one of the 500 level foundations courses (Ed. 500, 501, 502, 510, 511, 514, 545). Those electing the research project will enroll in course No. 530: Directed Research, (3), in the field of concentration, and will submit the completed project to the project director. They must also satisfactorily complete an oral examination on the project to be scheduled through the faculty advisor after completion of the project.

3. Electives: six semester hours selected from any field.

The Research Project Option

In completing requirements for the master of education degree, students electing the research project option must follow these additional procedures:

1. Present to the faculty advisor following admission to candidacy a brief outline of the research project proposed. If approved, the candidate is usually assigned a second advisor. For those electing the research project, the completed project must be submitted to the advisors at least eight weeks prior to the commencement at which graduation is expected.

2. Complete satisfactorily an oral examination on the research project. This examination is administered by three members of the graduate faculty designated by the director of graduate studies.

3. Submit three copies of the research project with the signatures of the examiners for filing with the director of graduate studies after completion of the oral examination.

The Master of Arts Degree in English

I. Admission to the Program

In addition to the general requirements for admission to the Salisbury State College Graduate Division, outlined above, applicants for admission to the English M.A. Program must have:

A. The undergraduate English major or its equivalent (thirty semester hours of English beyond freshman English) with a 3.0 grade point average in those undergraduate English courses. Students who fail to meet this requirement should consult the English Department's graduate advisor regarding removal of deficiencies.

B. Acceptable scores on the Graduate Record Examination aptitude test and advanced test in English. A minimum score of 500 on the advanced test in English is required; however, under special circumstances, the English Department Graduate Committee may admit candidates who do not meet this condition.

C. Two letters of recommendation from persons qualified to judge the applicant's ability to do graduate work in English.

D. A written description of their reasons for pursuing English graduate study and their academic goals within the discipline.

II. Admission to Candidacy

A. After satisfactory completion of at least 12 semester hours and not more than 18 semester hours, under plan A or B as indicated below, the student should apply for admission to candidacy for the master of arts degree. Graduate students are required to earn a minimum of 15 semester hours after admission to candidacy except in special cases authorized by the director of graduate studies.

III. Course Requirements

A. To be eligible to receive the M.A. in English, the graduate student must complete thirty-three (33) semester hours. Included in the thirty-three hours must be a minimum of six semester hours of English at the 500 level.

B. The graduate students must maintain a cumulative average of 3.0 (B) or higher on all courses and must have no grades below C. After completion of the first three courses (9 semester hours) in the program, any final grade lower than C will disqualify the student from continued enrollment in the program.

C. The student may choose either Plan A or Plan B in meeting degree requirements. All course selections must be approved by the faculty advisor.

1. Plan A (non-thesis)

a. At least 24 semester hours of English at the 400-500 level.
b. Up to nine semester hours at the 400-500 level in one supporting discipline, e.g., education, history, modern languages, philosophy, psychology, sociology, or communication arts.

2. Plan B (thesis)

a. At least 21 semester hours of English at the 400-500 level.
b. Up to 9 semester hours in one supporting discipline listed under Plan A above.

c. Three semester hours thesis credit (English 531).

IV. Procedures of the Academic Program

The student may elect to concentrate in an area of emphasis compatible with his needs and with the availability of course offerings outlined in the department's course scheduling sequence. This area may be a period of British, American, or comparative literature, a genre of literature, or the study of language. Within the departmental course offerings he may elect also a subordinate emphasis upon folklore or film.

V. Additional Requirements

To help insure that the degree program maintains a measure of commonality and a liberal scope, candidates for the English M.A. must take a written comprehensive examination. As soon as a student has been admitted to the program he or she will be provided with a list of primary and secondary materials one needs to study in preparation for the examination. Students are responsible for all materials on the list regardless of the course work they may elect. Students may take the examination at the conclusion of any semester in which they currently maintain good standing in the degree program, though they may not delay the examination longer than one full semester following the completion of their course work. Every examination will be evaluated by two members of the English Department faculty unless a third opinion of an examination's merits should be required. In order to earn the English M.A., a student must pass this comprehensive examination within two tries.

The Master of Arts Degree in History

I. Requirements for Admission to Candidacy:

A. At least fifteen semester hours in history from the junior-senior level or above, including a course in historiography. This preparation is designed to serve as a foundation for graduate study in history and is therefore ineligible for inclusion in the thirty-three semester hours normally required for the degree. Students lacking this preparation must make up the deficiency prior to becoming eligible for admission to candidacy.

B. Submission of an official copy of scores on the Graduate Record Examination Aptitude Test and Advanced Test in History. In special circumstances, the chairman of the History Department may permit the student to take the advanced test in another field. Applications for the GRE are available on request to the Graduate Office and test scores should be forwarded to that office directly from Educational Testing Service.

C. Submission of the completed application for admission to candidacy to the director of graduate studies. This application should be submitted after completion of the requirements indicated above and at least twelve semester hours of graduate degree credit and not later than having completed eighteen hours with cumulative average of B or higher and no grade below C.

Graduate degree students are required to earn a minimum of fifteen semester hours of graduate credit after admission to candidacy except in special cases authorized by the director of graduate studies.

II. Course Requirements:

A minimum of thirty-three semester hours, with cumulative average of B or higher and no grade below C, is required for the master of arts degree in history. At least fifteen semester hours of this work must be taken in courses at the 500-level, and this 15 hours must include at least nine semester hours at the 500-level in history (i.e., courses available exclusively for graduate credit).

Students admitted to the M.A. program in history may choose either Plan A or Plan B for meeting course requirements. All course selections must be approved by the History Department faculty advisor.

Plan A:

1. Eighteen semester hours in history
2. Nine semester hours in one minor field (education, English, geography, psychology, etc.)
3. Six semester hours: thesis in history

Plan B:

1. Twenty-four semester hours in history
2. Nine semester hours in one minor field (education, English, geography, psychology, etc.)

III. Additional Requirements:

All candidates for the M.A. in history must satisfactorily complete both a written and an oral examination near the completion of their program requirements demonstrating proficiency in the areas of study undertaken. Students should contact the chairman of the History Department in this regard after completion of twenty-one semester hours of graduate credit.

The Master of Arts Degree in Psychology

I. Admission to the Program

The Department of Psychology offers programs leading to the master of arts degree with areas of concentration in school psychology, counseling psychology and general psychology. In addition to the general requirements for admission to graduate study, students seeking admission to the master of arts program in psychology must meet the following requirements:

- A. Completion of the departmental application for admission to the M.A. program in psychology.
- B. Completion of requirements for an undergraduate major, or equivalent, in psychology, or related area (i.e., social work, sociology, education) with acceptable grade point averages in both the major field and overall baccalaureate program. Students without this preparation and/or whose grade point averages fall below acceptable levels may, with good reason, petition the Psychology Department Graduate Committee for admission, and, if successful, may be provisionally admitted to the program while making up deficiencies.

C. Completion of undergraduate courses in Psychological Statistics, Experimental Psychology and Psychology of Learning are required since these courses provide a foundation for graduate study in this field. Students without this foundation may be conditionally admitted to the program but must make up the deficiency prior to formal admission to the degree program.

D. Submission by an appropriate agency of acceptable scores on the Miller Analogies Test. Testing arrangements may be made through the Psychology Department Office on campus.

E. Submission of three letters of reference on standardized forms, available in the admissions packet, from individuals familiar with the applicant's qualifications for graduate study.

II. Admission to Candidacy:

After satisfactory completion of at least 12 semester hours, but not more than 18 semester hours, in the master's degree program, the student should apply for admission to candidacy for the master of arts degree. Graduate students are required to earn a minimum of 15 semester hours of graduate credit after admission to candidacy except in special cases authorized by the director of graduate studies.

III. Course Requirements:

A minimum of 36 semester hours, approved by the departmental advisor and student's committee and taken in the prescribed sequence according to the area of concentration selected, with grade point average of B or better.

IV. Additional Requirements:

A. Satisfactory completion of a written comprehensive examination. Scheduling of the examination is by written request of the student, submitted at least one month prior to the planned examination date and signed by the advisor. Students failing to complete this examination satisfactorily will be entitled to one re-examination only, to be scheduled after an appropriate time for review.

B. Satisfactory completion of a thesis for three hours credit (Psychology 531). The thesis topic must be approved by a committee of three faculty members selected by the student and his advisor. Upon completion of the thesis, an oral examination will be conducted by the student's thesis committee. Guidelines for thesis preparation are provided by the department.

COURSES OF INSTRUCTION

Art

490. INDEPENDENT STUDY

Variable 1 - 3 hours credit

A course to provide directed study in one or a combination of departmental disciplines. Only six (6) hours credit may be applied toward any Salisbury State College graduate degree. Students must furnish their own materials. Prerequisite: Graduates must receive approval of the department chairman.

NOTE: See Education Department listings for course in Art Education (Education 495).

Biology

415, 416. RESEARCH IN BIOLOGY

3 hours credit each

Independent study, in which each student conducts his own research project under the supervision of a member of the faculty. Prerequisite: Approval of project by supervisor. Normally reserved for advanced undergraduates and graduates. One hour of formal instruction each week and two additional hours to be arranged individually.

418, 419. BIOLOGY SEMINAR

1 hour credit each

Discussions concerning timely topics in biology and related fields. Includes direct student participation and faculty lectures. Prerequisite: Consent of the instructor. One hour per week.

422. GENERAL PHYSIOLOGY

3 hours credit

Encompasses the underlying physical and chemical principles of vital activity. Basic mechanisms are emphasized. The laboratory will include techniques in physiological investigation. Prerequisite: Biology 201, 204 or 122 and consent of instructor. Two hours lecture and three hours laboratory per week.

423. ELECTRON MICROSCOPY

3 hours credit

Introduction to the principles and techniques of electron microscopy in biology, including tissue fixation, embedding, ultra-microtomy, microscopy and photography. Prerequisites: Biology 101 and 102 or Biology 121 and 122 and completion of the biology core program or equivalent. Two hours lecture and three hours laboratory per week.

430. PLANT PHYSIOLOGY

4 hours credit

Advanced study of the physiological mechanisms utilized by plants with special reference to higher phyla. Prerequisites: Biology 203 or 121. A minimum of eight hours of chemistry is highly

435. CYTOLOGY

3 hours credit

A discussion of the structure and function of the cell and its components. Laboratory work is based on light microscopy and electron microscopy. Prerequisites: Biology 101 and 102 or Biology 121 and 122 and completion of the biology core program or equivalent. Two hours lecture and three hours laboratory per week.

490. SPECIAL TOPICS IN BIOLOGY

Variable 1 - 3 hours credit

A study of a specific area of biological science. The topics will vary from semester to semester. This course may be taken twice, under different course subtitles recorded with the registrar. Prerequisites: Biology 101 and 102 or Biology 121 and 122 and approval of the instructor.

501. MODERN CONCEPTS IN BIOLOGY

3 hours credit

A study of the most recent developments in biology, with special emphasis on genetics, animal behavior and sociobiology. This course may be taken twice, under different course subtitles recorded with the registrar. Prerequisites: Biology 101 and 102 or Biology 121 and 122 and completion of the biology core program or equivalent. Three hours lecture per week.

502. BIOLOGY AND ENVIRONMENT

3 hours credit

A study of organisms as integral parts of their environments, including field studies involving applications of environmental principles. Prerequisites: Biology 101 and 102 or Biology 121 and 122 and completion of the biology core program or equivalent. Two hours lecture and two hours laboratory per week.

503. CONTEMPORARY CELL BIOLOGY

3 hours credit

An intensive study of the latest findings in cell biology, with application to the pressing problems of today. Prerequisite: Biology 201, 202 and at least one year of chemistry. Three hours lecture per week.

504. PERSPECTIVES IN MODERN GENETICS

3 hours credit

Intensive study of modern genetics for the advanced student. Findings in molecular, cellular and developmental genetics will be related to classical genetic theory and current problems. Prerequisites: Biology 201, 202 and at least one year of chemistry. Three hours lecture per week.

Chemistry

(See Physical Sciences)

Communication Arts

400. COMMUNICATION AND CULTURE 3 hours credit

Philosophy and theories of human communication: structures, relations, and interactions between forms of communication within their cultural settings. Three hours per week.

A study of selected contemporary work exemplary of the character of contemporary writing. Reading is done in the novel, drama, the short story, and poetry. This course may be repeated under different course subtitles recorded with the registrar. Three hours per week.

509. SEMINAR IN LANGUAGE STUDY 3 hours credit

A study of selected topics in language and linguistics. The course focuses in different semesters on such topics as the new English, descriptive or historical linguistics, morphology-syntaxis, or phonetics and phonemics, teaching standard English to speakers of other languages, or standard English to speakers of other dialects. This course may be repeated under different course subtitles recorded with the registrar. Prerequisite: English 225 or 422 or consent of instructor. Three hours per week.

530. DIRECTED RESEARCH 3 hours credit

Preparation of optional research project in master's degree program under department supervision.

531. THESIS 3 hours credit

French

401. ADVANCED COMPOSITION AND MORPHOLOGY 3 hours credit

A course designed to bring together on an intense advanced level all the principles of morphology, syntax, sentence development, and sentence structure through translation and advanced composition. Prerequisite: French 211. Three hours per week.

402. ADVANCED CONVERSATION 3 hours credit

A course designed to provide greater flexibility in the spoken language by intense oral practice to correct the defects of pronunciation and diction. Prerequisite: French 220 or consent of department chairman. Three hours per week.

405. SPECIAL PROBLEMS IN FRENCH Variable 1-3 hours credit

Individual study of special areas in French linguistics or in French literature with the advice and direction from a member of the department. Three hours per week.

411. MEDIEVAL AND RENAISSANCE THOUGHT IN FRENCH LITERATURE 3 hours credit

A study of the major phenomena of French literary history from its dawning in 843 to the negative implication in the term "Dark Ages," through to the optimism of the early renaissance in Rabelais to its decline in Montaigne. Three hours per week.

Prerequisite: French 320 or 321 or consent of department chairman. Three hours per week.

Geography and Regional Planning

403. REGIONAL AND HISTORICAL GEOGRAPHY OF THE MEDITERRANEAN LANDS 3 hours credit

An analysis of the geographic unity and complexity of the lands bordering the Mediterranean Sea. Contemporary problems are considered in their geographic setting. Three hours per week.

405. URBAN GEOGRAPHY 3 hours credit

An analysis of the spatial distribution of urban settlements, their internal structure and characteristics. Emphasis is placed on techniques of analysis, and on the development of theoretical concepts and general principles. Special attention is given to contemporary urban problems.

Prerequisite: Geography 203 or consent of instructor. Three hours per week.

406. REGIONAL PLANNING 3 hours credit

An analysis of the spatial incidence of economic growth. Emphasis is placed on the spatial dimension as an important consideration in the theory and practice of economic development planning. Prerequisite: Geography 203 or consent of instructor. Three hours per week.

407. INDUSTRIAL LOCATION 3 hours credit

An analysis of the major factors influencing industrial location decisions and the spatial arrangement of industrial activity. Emphasis is placed on the development of theoretical concepts and general principles. Some attention is given to regional and city industrial development planning. Prerequisite: Geography 203 or consent of instructor. Three hours per week.

408. URBAN PLANNING 3 hours credit

An examination of theories and strategy approaches to urban development and land use planning along with techniques for evaluation. An assessment of the urban planning process with case studies. Prerequisite: Geography 203 or consent of instructor. Three hours per week.

411. GEOMORPHOLOGY 3 hours credit

This course deals with landform analysis. Treatment is given to the agents of erosion and deposition—water, wind, and ice, and to the internal forces which leave visible evidence on the earth's surface. Prerequisite: Geography 200 or consent of instructor. Four hours per week and four one-day and one three-day field trips.

413. APPLIED CLIMATOLOGY 3 hours credit

An analysis of global energy/water budgets and climatic classifications. Emphasis is placed on the application of energy and water balance principles to problems in agriculture, architecture, industry and commerce, and health. Prerequisite: Geography 201 or consent of instructor. Two hours lecture and one two-hour laboratory per week.

415. SELECTED PROBLEMS 3 hours credit

Independent study designed to permit research or in-depth work on a selected topic. Specific topic will be indicated on the student's transcript. May be taken twice for credit. Prerequisite: Twelve hours in geography and consent of instructor.

422. READINGS IN GEOGRAPHY 3 hours credit

Readings designed to permit in-depth study of a selected topic. Specific topic will be indicated on the student's transcript. May be taken twice for credit. Prerequisite: Twelve hours in geography and consent of instructor.

450. TOPICS IN GEOGRAPHY 3 hours credit

An analysis of selected systematic and/or regional topics. A single theme will be considered and will be entered on the student's transcript. May be taken three times for credit. Prerequisite: Consent of instructor. Three hours per week.

475. FIELD PROBLEMS IN GEOGRAPHY 6 hours credit

In-field geographic research experience. Emphasis is on actual field experience that involves the development of a research proposal, data collection and analysis, and the integration of such in a formal research paper. Prerequisite: Consent of instructor.

500. GEOGRAPHICAL INFLUENCES IN AMERICAN HISTORY 3 hours credit

A study of the geographical influences affecting the historical growth and development of North America from colonial times to the present. Prerequisite: Geography 206 or consent of instructor. Three hours per week.

502. SEMINAR: ANGLO-AMERICA 3 hours credit

An analysis of selected problems concerning the physical and human geography of Anglo-America. Topics selected with the consent of instructor. Prerequisite: Geography 206 or consent of instructor. Three hours per week.

503. SEMINAR: REGIONAL AND HISTORICAL GEOGRAPHY OF EUROPE 3 hours credit

An analysis of selected problems concerning the physical, political and historical geography of Europe. Topics selected with consent of instructor. Prerequisite: Geography 304 or consent of instructor. Three hours per week.

504. SEMINAR: PHYSICAL GEOGRAPHY 3 hours credit

A seminar dealing with current problems in the areas of meteorology, climatology, soils, geomorphology and vegetation. Topics selected with consent of instructor. Prerequisite: Consent of instructor. Three hours per week.

530. DIRECTED RESEARCH

3 hours credit

Preparation of optional research project in master's degree program under departmental direction.

Geology

(See Physical Sciences)

Health**401. COMMUNITY HEALTH**

3 hours credit

A study of the factors involved in improving public health, including a survey of community health problems and resources, and the role of the teacher in community health. Three hours per week.

History**400. HISTORY OF MARYLAND**

3 hours credit

A study of Maryland history and government from the colonial period to the present. The course places special stress on the leaders, institutions, and contributions made in Maryland and by Maryland to the nation. Three hours per week.

3 hours credit

An historical study of the foreign relations of the United States and the resultant diplomatic negotiations from 1776 to the present. Three hours per week.

405. THE UNITED STATES IN THE 20TH CENTURY I

3 hours credit

Populism to 1932. A study of the political, economic, intellectual and social problems attending America's rise to world power later in the 19th century, her involvement in World War I, the changes attending that conflict and the problems of the 1920's. Three hours per week.

406. THE UNITED STATES IN THE 20TH CENTURY II

3 hours credit

F.D. Roosevelt to the present. A study of the efforts of the United States to resolve the complex problems of the 1930's intensified by the Great Depression, its involvement in World War II, and struggles to maintain peace in the post-war world. Three hours per week.

407. THE WESTWARD MOVEMENT

3 hours credit

A study of the Westward Movement from the Atlantic to the Trans-Allegheny and Trans-Mississippi West, with emphasis upon the influence

of the frontiers in shaping American civilization. Three hours per week.

408. HISTORY OF THE SOUTH

3 hours credit

A history of the South from the colonial period to the present, covering developments in politics, economics, culture and society. Three hours per week.

409. RECENT TRENDS AND DEVELOPMENT IN LATIN AMERICA

3 hours credit

An examination of the important political, economic and military changes in Latin America, particularly those of the 20th century. Three hours per week.

411. PROBLEMS IN LATIN AMERICAN HISTORY

3 hours credit

Readings, reports, and discussion of historical problems of Latin American development. Three hours per week.

412. SOCIAL AND CULTURAL HISTORY OF THE UNITED STATES I (1600-1875)

3 hours credit

(See course description in History 413.)

413. SOCIAL AND CULTURAL HISTORY OF THE UNITED STATES II (1876 to present)

3 hours credit

These courses are a study of American thought as reflected by the people and leaders. The development of American heritage is covered from the Colonial Period to the present, with emphasis upon the intellectual, social, religious, and economic movements. The first course covers from the Colonial Period to Reconstruction and the second course from about 1876 to present. Three hours per week.

417. HISTORY OF SCIENCE AND TECHNOLOGY

3 hours credit

A survey of the evolution of scientific achievements and technology in the western world, with particular emphasis on the cultural, economic and social implication of these developments. Prerequisites: History 101, 102. Three hours per week.

421. EUROPE IN THE 20TH CENTURY WORLD

3 hours credit

A study of the economic, social, intellectual, and political development of Europe, viewed in the context of world wars, depression, and conflicting political ideologies, showing the decline of European dominance and the rise of America and Asia. Prerequisites: History 101, 102. Three hours per week.

423. RUSSIA: RISE TO IMPERIAL POWER

3 hours credit

A study of Russia from its Kievan origins, its medieval growth and consolidation, to the empire inherited by Nicholas I; emphasis on the social, economic and political developments. Prerequisites: History 101, 102. Three hours per week.

424. MODERN RUSSIA

3 hours credit

This course will survey the growth of a modern, industrialized, bureaucratic state, from the reign of Nicholas I to the present, with emphasis on the social, economic and political forces which have shaped the Soviet Union of today. Prerequisites: History 101, 102. Three hours per week.

426. HISTORY OF SOUTHERN ASIA

3 hours credit

A study of the Indian sub-continent and adjacent regions, their social development, the evolution of Hinduism and Buddhism, the Islamic, Mongol, and British conquests, the rise of nationalism, and the status of the region today. Prerequisites: History 101, 102. Three hours per week.

430. READINGS IN HISTORY

3 hours credit

A readings course in history for students who have achieved above average in at least eighteen hours of history courses. This course may be taken twice, under different course titles recorded with the registrar. Three hours per week.

437. HISTORY OF EUROPEAN IDEAS

3 hours credit

A survey of the western intellectual tradition, beginning with its heritage from the ancient world, and emphasizing the main currents of European thought from the Middle Ages to the present. Particular emphasis will be placed on the rise of a spirit of free inquiry, the development of a scientific attitude, and the growth of a distinct intellectual class. Prerequisites: History 101, 102. Three hours per week.

440. MINORITY GROUPS IN UNITED STATES HISTORY

3 hours credit

Attention is given to the role and contribution of minority groups in general, with special emphasis on some of the larger and older minority groups. Three hours per week.

445. BLACK AMERICAN HISTORY

3 hours credit

A study of the life and role of the Black American from the Colonial period to the present. Three hours per week.

450. SELECTED PROBLEMS IN EUROPEAN THOUGHT AND CULTURE, 1700-1840

3 hours credit

460. HISTORY OF CHINA SINCE 1800

3 hours credit

The revolutionary transformation of China from the 19th century to the present, with emphases on the impact of imperialism, the profound effects of western technology and foreign policy wrought by the history of her relations with the west. Prerequisites: History 101, 102. Three hours per week.

470. HISTORY OF THE EARLY ROMAN EMPIRE

3 hours credit

An intense study of particular institutions and movements in Roman history. Emphasis on family history and social and religious trends during the early imperial period of Roman history. Prerequisites: History 101, 102. Three hours per week.

472. STUDIES IN CLASSICAL ARCHAEOLOGY

3 hours credit

Assorted topics and archaeological sites of the ancient Mediterranean world (Crete, Greece and Italy) will be examined. Course may be taken twice under different subtitles. Prerequisites: History 101, 102. Three hours per week.

480. MUSEUM STUDIES

3 hours credit

The course is designed as a work experience which invites students to learn techniques of museology. The student will work in cooperation with various local or regional museums. The learning experience will take place under the supervision and direction of a museum curator. May be repeated once.

490. STUDIES IN HISTORY

3 hours credit

An intensive historical study of particular periods; groups; economics, intellectual, cultural, social movements, and/or institutions. This course may be taken twice, under different course titles recorded with the registrar.

502. SEMINAR: COLONIAL AND REVOLUTIONARY AMERICA

3 hours credit

A study of colonial institutions and the American Revolutionary movement. Emphasis is placed upon the study of specific topics through individual research projects. This course may be taken twice, under different course subtitles recorded with the registrar. Three hours per week.

503. SEMINAR IN 19TH CENTURY AMERICA
3 hours credit

This seminar offers an opportunity to the student to explore in-depth 19th century American society, via themes selected by the instructor. This course may be taken twice, under different course subtitles recorded with the registrar. Three hours per week.

504. SEMINAR IN EUROPEAN HISTORY
3 hours credit

A seminar designed to enable the student to explore, through intensive research, basic problems in European history. The period or topics to be studied will be selected by the instructor. This course may be taken twice, under different course subtitles recorded with the registrar. Three hours per week.

505. SEMINAR: MARYLAND HISTORY
3 hours credit

A seminar designed to acquaint students, through readings and research, with some of the major problems and developments in the history of Maryland. This course may be taken twice, under different course subtitles recorded with the registrar. Three hours per week.

506. SEMINAR IN 20TH CENTURY AMERICA
3 hours credit

A seminar enabling the student to explore intensively specific periods and/or problems in this century through individual research. This course may be taken twice, under different course subtitles recorded with the registrar. Three hours per week.

508. SEMINAR IN AMERICAN DIPLOMACY
3 hours credit

A seminar permitting students to investigate, through reading and research, selected problems in the history of American diplomacy. This course may be taken twice, under different course subtitles recorded with the registrar. Three hours per week.

510. SEMINAR IN LATIN AMERICAN HISTORY
3 hours credit

An intensive study of major institutions and specific periods in Latin America through reading and research. This course may be taken twice, under different course subtitles recorded with the registrar. Three hours per week.

530. DIRECTED RESEARCH
3 hours credit

Preparation of optional research project in master's degree program under direction of departmental supervision. Three hours per week.

531. THESIS
3 hours credit

Leisure Studies

460. LEISURE: THEORY AND POLICY
3 hours credit

An in-depth analysis of the theoretical constructs which constitute the field of leisure. Emphasis will be placed on the inter and multi-disciplinary nature of the issues as well as the policy implications of the varied disciplines. Three hours per week.

Mathematical Sciences

402. THEORY OF NUMBERS
3 hours credit

Basic concepts: integers, prime numbers, divisibility, congruences and residues. Prerequisite: Math 201. Three hours per week.

406. GEOMETRIC STRUCTURES
3 hours credit

An axiomatic development of incidence, ordered incidence, affine and absolute geometries; investigation of Euclidean and non-Euclidean geometries. Prerequisite: Math 201. Three hours per week.

413. MATHEMATICAL STATISTICS I
3 hours credit

Axioms and algebra of probability, discrete and continuous random variables and their probability distribution, multivariate distributions, limit theorems. Prerequisite: Math 310. Three hours per week.

414. MATHEMATICAL STATISTICS II
3 hours credit

Methods of estimating, properties of estimators, hypothesis testing, linear models, least squares, analysis of variance, enumerative data, nonparametric statistics. Prerequisite: Math 413. Three hours per week.

431. POINT SET TOPOLOGY
3 hours credit

Topological spaces, homeomorphisms, compactness, metric spaces, connectedness and other topics. Prerequisite: Math 306 or 310. Three hours per week.

441. ABSTRACT ALGEBRA
3 hours credit

An introduction to the theory of groups, rings, integral domains and fields, including basic properties of polynomials. Prerequisite: Math 306 or 310. Three hours per week.

451. ANALYSIS I
3 hours credit

Modern abstract analysis including such topics as topology of the real number system, sequences, continuity and differentiability. Prerequisite: Math 310. Three hours per week.

452. ANALYSIS II

3 hours credit

A continuation of Analysis I including such topics as the Riemann-Stieltjes integral, sequences of functions, and Lebesgue Theory. Prerequisite: Math 451. Three hours per week.

461. DIFFERENTIAL EQUATIONS
3 hours credit

Frobenius series solutions, regular and singular points, existence and uniqueness theorems for the initial-value problem; systems of equations; the boundary-value problem; other topics. Prerequisite: CALC IV (Math 311). Three hours per week.

465. MATHEMATICAL MODELS AND APPLICATIONS
3 hours credit

Mathematical basis for model building; examples of simple models for uncomplicated systems in biology, psychology, business and other fields, finite markov processes; models for growth processes. Prerequisite: Math 306. Three hours per week.

480. DATA BASE MANAGEMENT SYSTEMS
3 hours credit

Study of the design, implementation, and application of Data Base Management Systems. Several commercially-available systems will be examined. Prerequisite: Experience with File-Design Concepts (COSC 382 or 385). Three hours per week.

483. SOFTWARE SYSTEMS II
3 hours credit

Analysis of the operating system, the program which supervises the activity of the computer. Resource allocation will be emphasized. Prerequisite: COSC 383 and 385. Three hours per week.

487. MICROCOMPUTER INTERFACING
3 hours credit

Microcomputers and their applications to instrumentation, data-logging and process control. Offered at undergraduate level on P/F basis. Traditional letter grade used in assigning graduate credit. Prerequisite: Familiarity with a microcomputer at the machine level. (COSC 281). Two hours lecture and two hours lab per week.

490. SPECIAL TOPICS
3 hours credit

For the student who wishes to study in certain specialized areas such as functional analysis, multivariate statistics, or artificial intelligence. This course may be taken twice, under different course subtitles recorded with the registrar. Prerequisites: (For most topics) Math 306 and 310. Three hours per week.

500. FOUNDATIONS OF NUMBER THEORY
3 hours credit

Designed for teachers of arithmetic with emphasis on the development of real number system in Elementary Number Theory. Prerequisite: One course in college mathematics or consent of instructor. Three hours per week.

501. COMPUTER SCIENCE FOR MATH AND SCIENCE TEACHERS
3 hours credit

Study of microcomputers, advanced programming concepts, and other topics appropriate to secondary school teachers of Mathematics and Science. Prerequisite: Ability to design and write clear programs (COSC 181).

502. STATISTICS FOR MATH AND SCIENCE TEACHERS
3 hours credit

The use of linear models in the analysis of data, starting with simple models and going to more complex models. Special attention will be given to the use and abuse of these models by researchers. Prerequisite: A course in statistics (Math 113 or 114). Three hours per week.

506. SELECTED TOPICS
3 hours credit

Designed for students with a major in mathematics to develop topics in mathematics not included in the undergraduate program or to extend areas previously studied. Prerequisite: Approval of the department.

507. SEMINAR: ALGEBRA
3 hours credit

A seminar dealing with selected topics from linear and abstract algebra. A seminar paper is required. Prerequisite: Approval of the department.

508. TRANSFORMATION GEOMETRY
3 hours credit

A study of the group-theoretic structure of geometry. Application of isometries, similarities and affine transformations to Euclidean geometry. Prerequisite: Math 406 or equivalent.

530. DIRECTED RESEARCH
3 hours credit

Preparation of optional research project in master of education degree program under departmental supervision.

590. SPECIAL PROBLEMS IN MATHEMATICS
3 hours credit

Individually designed programs including summer workshops and special seminars. Specific topic will be indicated on transcript. This course may be taken twice, under different course subtitles recorded with the registrar. Prerequisite: Consent of instructor.

Music

400. RENAISSANCE AND BAROQUE MUSICAL STYLES

3 hours credit

Philosophy, musical forms and styles of the period 1500-1750, study of representative vocal and instrumental music by outstanding composers of the period. Prerequisite: Music 104 or approval of department chairman. Three hours per week.

401. MUSICAL STYLES OF THE 18TH AND 19TH CENTURIES

3 hours credit

Philosophy, musical forms and styles of the period 1750-1900, study of representative vocal and instrumental music by outstanding composers of the period. Prerequisite: Music 104 or approval of department chairman. Three hours per week.

408. MODERN MUSIC

3 hours credit

Emergence of new developments from late romantic music through serial and electronic music, including influences of jazz and considering the effects of social forces and current world events. Prerequisite: Music 104 or equivalent. Three hours per week.

409. INTRODUCTION TO ETHNOMUSICOLOGY

3 hours credit

The study of music of world cultures not associated with the traditional study of Western art music with emphasis on the musics of Eastern Europe, the Near, Middle and Far East, Africa, the Pacific Islands, and native America. Prerequisites: Music 104 or 110 and 200 or approval of instructor. Three hours per week.

410. CHURCH MUSIC

3 hours credit

Designed for the practicing or potential church musician. A practical course dealing with all aspects of the church music program. Prerequisite: Approval of the instructor. Three hours per week.

411, 412. APPLIED MUSIC I AND II

3 hours credit

An advanced course in performance technique using a wide variety of literature. A solo recital (alone, or sharing a program with other students) encompassing music of many styles and periods is a required culmination. Students will elect one performing medium (piano or voice or organ or other instrument) and must have completed the fourth course in the sequence for that instrument as a prerequisite. Each course may be repeated for credit once. Three hours per week and a minimum of 12 individual practice hours per week.

416. AMERICAN MUSIC

3 hours credit

Analysis of musical forces and styles as they reflect the nation's development and America's unique contributions to the growth of music as an art form. Prerequisite: Music 104 or equivalent. Three hours per week.

417, 418. CLASS PIANO V AND VI

2 credit hours each

Continuation of technical and performance skills from Piano IV. For students who require additional study to qualify for Applied Music or for those who wish to continue study below the Applied Music level. Prerequisite: Piano IV or written approval of instructor.

423, 424. CLASS VOICE V AND VI

2 credit hours each
